

Dear Sir or Madam,

I am excited to submit my application for the Site Reliability Engineer position at Close.io. I believe my skills and background will meet your expectations for this role.

Constantly updating my skill set, I am proficient in Python, basics in web development, DevOps culture with proven abilities understand cloud platform and DevOps implementation. I have spent the past two years at Mindtree limited, where my main responsibilities revolved around setting up CICD pipeline using DevOps toolset, infrastructure provisioning in the different cloud platforms, and working on automation tasks using Shell, Python, Puppet, and Ansible.

My skills and experience in DevOps, automation, AWS, Linux administration will be of great benefit to Close.io. I look forward to discussing the role and my qualifications with you in more detail.

Sincerely,
santosh katageri
